

CLAIMS

[0010]

What is claimed is:

- 1. For an automobile with an automatic transmission, a brake pedal, comprising:**
a brake pedal installed either with at least two-thirds of the total surface area of the brake pedal to the left, or the brake pedal installed entirely to the left, of a line drawn perpendicular to, and forward from, the center of the automobile's driver's seat.
- 2. For an automobile according to claim 1, wherein the parking brake pedal is installed between the accelerator pedal and the brake pedal.**
